RAYMOND A. WHITCOMB, the experienced traveling trips to the

It is asserted on good authority that the coast line Alaska exceeds that of the United States.

The doctors who cut up Bishop, the mind-reader, have been indicted for violating sanitary laws.

At Johnston, the wreck is still being cleared away, and more corpses are continually being discovered.

ALHAMBRA is determined to fight the proposition to conduct the Pasadena sewage that way. Pasadena had better join on to our sewer system.

A CORRESPONDENT asks: "Has it been suggested that the Tenth-street hotel site would be an excellent location for the Exposition building?" We believe it has.

BOTH branches of the Illinois Legislature have passed an act forbidding the sale or circulation of any publication devoted to details of violence or crime.

THE net earnings of the California Central Railroad for April, 1899, were \$16,446.00, and of the California Southern Railroad were \$12,301.44. A good showing for our section of the State.

A COMPANY is circulating a subscription list in San Diego for donations of cash or real estate, to induce the building of a cable railroad four miles long. We didn't do it that way here.

LEONARD SWETT, the well-known Chicago attorney, and formerly law partner of Abraham Lincoln, is dead. He made the speech nominating Lincoln in 1860, and did the same thing for Gresham in 1888.

WILL the writer of a letter signed "Elderico," and addressed to THE TIMES, concerning double registration and false swearing, please call at this office, in confidence, for the purpose of giving needed information?

THERE is a plan on foot to erect in New York a great mausoleum capable of holding the remains of 30,000 people. The projectors propose also to put up similar mausoleums in other cities. A sort of corner in corpses, as it were.

THE Express once more illustrates the superiority of evening journalism by publishing a quarter-column account of the cable-road banquet within 38 hours of the appearance of a four-column description of the affair in THE TIMES.

THE Topeka Journal says that, by starting from Southern Texas in February, and traveling northward by slow stages into British America, a man might have strawberries until the end of August. He might have the same by staying right here in Los Angeles.

THE authorities of the State of New York have purchased dynamos to be used in generating an alternating electric current for the execution of criminals. This was necessitated by the action of the electric companies in refusing that no company should allow a current in its control to be used for the "ignoble purpose" of executing murderers.

LOS ANGELES AS IT IS.

Very much the larger portion of the territory comprised within the boundaries of the city of Los Angeles is decidedly hilly. The level portion lies west of the river and south of the center of the town, and is triangular in form, with the sharpest angle at the north, the base of the triangle resting on the southern border of the city. The upper or northern portion of the triangle was first occupied by settlers, and comprises the business portion of the city, while the balance is devoted mainly to residences. The rest of the city is divided into three pretty well defined localities. Boyle Heights constitutes the southeastern portion of the city's territory, and is east of the river. East Los Angeles should be called Northeast Los Angeles, for that is the quarter of the city known by the name of East Los Angeles. It is also east of the river. The remaining portion of the city is commonly called the West End, though it lies rather at the northwest. The old level portion of the city and the West End are west of the river, which enters the city from the northwest, and then flows south through the city parallel with its north and south lines, but nearer by half to the east boundary than to the west. The parts of the city lying to the east of the river are not extremely hilly, but are of a description which might be called uneven. The West End, and particularly the northern portion of it, is the really hilly part of the city. There the hills are almost to the dignity of mountains. Nevertheless, they are well rounded off; never very precipitous, and are all capable of being improved and beautified. The Elysian Park is in this quarter of the city, and comprises within its bounds several hills of no inconsiderable magnitude. These hills have of late attracted the attention of the Park Commissioners, and if the money held by them will be made very beautiful. Until recently, this very hilly portion of the city was comparatively unknown, being regarded as almost inaccessible. It was covered with a luxuriant growth of wild oats and clover—not to mention the mustard and malva—and afforded good pasture for dairy herds. Lately, however, it has been partially penetrated by two or three lines of cable street railways, largely overcoming its inaccessibility, and, as a consequence, settlements are springing up all over it. Some of the residences on the hills are as sightly as the castles along the Rhine. The views from them of mountains, ocean, valley, hill, dale, and city, are not easily surpassed.

The level portion of the city and every part of the same, quite to the southern boundary, are approachable by lines of horse and electric railways, several of which are being replaced by a complete system of cable roads, which will render travel over the lines much more agreeable.

Boyle Heights, Brooklyn Heights

of the city, and is approached from the business quarter of the city by good and substantial bridges over the river and by lines of horse and cable railway. Each part of Los Angeles has its distinctive and peculiar attractions, but just which locality possesses the most attractions depends upon the taste of the person interested. To one seeking a home every sort of inducement is offered, and one must consult his own fancy in making a selection of the attractions which Nature has offered.

LET US HELP NATURE.

With the contrasts which exists between the climatic conditions of this coast and the country lying to the eastward of the Rocky Mountains, it cannot be otherwise than that immigration to this highly favored region should continue, and that in a greatly increased ratio. Particularly in this section an inviting one to the agriculturist, who has few evils to contend with, in comparison with those which he encounters under the old régime. The danger from drought, from flood, from storm and tempest, is so small here as to be scarcely considered. This is the land where Nature is the farmer's friend. Sudden changes of temperature, with extremes of difference, seldom, if ever, occur. What today is, one may be sure that tomorrow will be. Sunshine, equable temperature, exemption from frosts and undue heat or cold, are the climatic characteristics of this region, and, therefore, what the farmer sows he may be pretty sure that he will reap.

The open winter of the East has been followed by a cold spring, late frosts, and, in many places, destructive floods and storms. In some sections of the country crops have been greatly injured, and as a consequence farmers are discouraged, and are, as thousands have done heretofore, turning a questioning attention to the Golden State. We have everything to offer them in the way of climate, but we need to supplement that by active enterprise in the work of improvement and the development of our resources. The world will not believe in us unless we show to it that we believe in ourselves; that we have faith in our future and courage enough to show our faith by our works.

Nature has done her part for this section, and it only remains for us to do ours, in order to see Southern California the most prosperous, wealthy, and, in a few years, the most populous of any State in the country. Let our people show something of the energy, the enterprise, and the unfaltering determination of the old boom days, and there will be nothing to hinder the rapid influx of population, and the steady growth of the whole of Southern California.

THE residents of the West End have a right to be indignant at the manner in which the Council neglects their interests and refuses to open up some thoroughfare over which they could reach the business section without having to make a long detour. There is probably no city in the United States, of the size of Los Angeles,

which has such an impediment right in the middle of town, as the range of hills between Temple and Seventh, passable by only one street—Second—and that having a very steep grade.

THE Oakland Tribune found an article on the fact that the school census gives Oakland 15,769 children under 17 years of age, and Los Angeles 15,847. The Tribune believes that the proportion of grown people to children under 17 in any settled community is nothing like five to one, and draws the conclusion that both Oakland and Los Angeles have a population of about 50,000. It is, anyhow, something to have an Oakland paper admit that this city is equal to the modern Athens in population.

THE "reverend" Sam Jones has got back home, and has been giving the Atlanta papers a "fill" about California, and especially Los Angeles. Among other peculiar "facts" which Mr. Jones described to the Georgia journalists was that water here runs up hill; that people take fresh cold twice a day and that ladies (!) bet their diamonds and seal-skin saques on dog fights and horse races. One is tempted to inquire what sort of society Mr. Jones affected while with us.

It seems to be an undoubted fact that there are herds of great mammoths in Alaska—a beast that was supposed to be extinct. They are described as being about 30 feet long by 20 feet high, covered with reddish-brown hair, and armed with six tusks. Here is a chance for some of those Nimrods who are satiated with ordinary big game. We shall expect soon to hear of a big hunting expedition bound for the interior of Alaska.

THE City Treasurer of Chicago is being hauled over the coals for refusing to turn over to the city large sums of money which he obtains from the banks where city moneys are kept. He is said to make as much as \$50,000 a year in this manner. As the City Council has refused, by a vote of 25 to 20, to order him to pay the money over, it is probable he has to "divvy" with those gentlemen.

THE ballot-reform laws which have now been incorporated in the statutes of nine States differ in many details, but they all agree in providing for a secret ballot, prepared in booths or compartments, in directing the printing and distribution of ballots at the public expense, in forbidding the use of any except the official ballots, and in making arrangements for independent nominations.

WHAT a satire upon the wealth and prosperity of this land of freedom is offered by a "poor man with a large family" who has written from Philadelphia to the Superintendent of Prisons at Albany, N. Y., offering to be a victim to science by testing the efficiency of the apparatus to cause death by electricity, provided that \$5000 is paid to his family in case the experiment succeeds.

THE Washington Post says that even the Prohibitionists could afford to encourage it. It is done by a California company which last week shipped in Europe for \$175,000 worth of its products. If all the American wine were sent out of the country, of course there would be none left to tempt Americans to drink. But the trouble is in keeping it from drifting back here with foreign labels on and a hair-raising price.

WE are having remarkably cool weather for this time of year. Now we have written this, the thermometer will probably touch 95 today.

AMUSEMENTS.

MATTIE VICKERS—The Los Angeles Theater was crowded again last night. Every seat was taken and the stage boxes were full. Miss Vickers gave a good show and deserves to do a large business. On Friday evening Mattie will give *Cherubs* for the first time in Los Angeles.

NAT GOODWIN—This clever comedian has played a pretty joke, not only on Manager Wybit, but on the theater-goers and the Nobles of the Mystic Shrine. The Nobles had engaged the whole of the parquette at the Grand Opera-house for last night, and intended to give Goodwin a banquet after the performance, and before 10 o'clock yesterday morning almost every seat in the house had been taken, when a dispatch from Reno, Nev., announced that Goodwin and his company were on their way East. The only excuse given was that Goodwin was sick, and could not keep his engagement in Los Angeles. Well, he may have been sick, but he will be much sicker should he ever visit Los Angeles, for the people of this city will not put up with such antics, even from a low comedian.

THE IVY LEAF—Next week this company will play a week's engagement at the Grand. They have offered to give Manager Wybit a benefit on Wednesday evening, when several members of his new opera company will take a hand. This is the first benefit he has taken for over a year, and he should have a crowded house.

LOS ANGELES BOYS WITH HONORS. Los Angeles boys have acquitted themselves creditably at Santa Clara College this year. Adolph Rivera, Frank Cummings, Otto Weid and T. D. Mott, Jr., have succeeded in obtaining the degree of Bachelors of Science. Mr. Rivera and Otto Weid propose to follow civil engineering, and Frank Cummings and T. D. Mott the law. Mr. Weid has the honor of being first in his class of 16 members. The honor of *cum laude* was received by him and Mr. Cummings.

DRUNKS TAKEN IN. Last night a chronic drunk, known as Katie, got on one of her sprees, and when Officer Connolly tried to arrest her a male companion, named William Dorsey, interfered, the result of which was both parties were landed in the police station, the woman on a charge of drunkenness, and the man on a charge of interfering with the arrests.

MUST MOVE ON. Last night, the proprietors of the houses of ill-fame on Sepulveda street, were served with notice by the Chief of Police to move by the first of the month, and if they are there by that time they will be raided until they get out.

CHICAGO FRUIT SALES. CHICAGO, June 10.—Porter Bros. & Co., agents for the California Fruit Union, sold three cars today as follows: Apples, \$1.50 to \$1.35; apricots, \$1.50 to \$1.40; plums, 70 cents to 80 cents; cherries, \$1.50 to 90 cents. Cherries were in bad condition and peaches only fair.

ELLIS COLLEGE.

The Commencement Exercises Last Evening.

The commencement exercises of Ellis College took place last night at the college hall and were very largely attended. The seats in the hall being all occupied and standing room at a premium. The exercises were unusually interesting, and the audience was captivated by the thorough attainments of the young ladies who took part. The exercises consisted, with one exception, of music, vocal and instrumental, and the faculty as well as the audience had sufficient grounds for genuine pleasure in the performance of the graduates and students.

A duet and chorus, "At the Cloister Gates," by Miss Long, Miss Ellis and the class vocal culture was the first number on the programme, and was enthusiastically received.

There were instrumental solos by Miss Padgham, Miss Giffin and Miss Veazie, giving evidence of excellent instruction and a faithful work by the young ladies. Mrs. Ellis and Miss Cobb rendered an instrumental duo in almost faultless style.

The "shadow song," from *Dinorah*, by Miss Veazie, was excellently done, and she was heartily applauded.

Miss Ellis sang a contralto solo, recitative and aria, from *Semiramide*. She has a sweet voice, of considerable power, and it showed careful training.

Miss Veazie, Miss Giffin, and Miss Veazie read an essay in French on the subject, "Modern Language as a Fine Art." Her essay was sensible, and showed nice discrimination in her selection of a large subject. Her reading and accent were much admired.

The soprano solo by Miss Padgham was the gem of the evening. She sang the "Polonaise" from *Mignon*. Her voice is exceedingly sweet and flexible, and her execution admirable.

She is a pretty and graceful young lady, and gave the difficult music with exquisite effect.

Not less effective was the trio, "Nightfall and Darkness," by Misses Padgham, Parker and Ellis. They rendered the pretty selection in admirable style.

Mr. Ellis presented the diplomas to Miss Giffin, the College of Languages, and Miss Giffin, of the College of Music. He did so in a brief style, but with several happy hits, and afterwards conferred the degree of Master of Arts on Miss Giffin.

The entertainment concluded with a chorus, "Whirl and Twirl," from *The Flying Dutchman*, by the class in vocal culture, and it was excellently rendered.

By request, little Miss Ethel Stewart favored the audience with an instrumental solo. The charming little girl, who is only 10 years old, has an astonishing precocity of musical attainment, and her performance was very enjoyable. The entertainment was a most creditable showing for the college. One remarkable feature of the exercises was the natural and graceful manners of the performers. They were not only modest, but self-possessed, and displayed scarcely any of that awkwardness and confusion usual to sweet girl graduates. There were quite a number of pretty floral offerings to the young ladies during the evening.

NEARLY ALL IN.

The Johnston wreck, which

winding up its work, will report will be ready in a day or two.

Yesterday morning the Illinois Association sent in \$183,000, an equally divided between the Johnston and Seattle sufferers. The sum was realized from the entertainment given last Saturday evening.

The proceeds from the concert in the Pavilion Saturday evening have so far footed up \$714, and it is thought that when all the tickets are reported the total will amount to nearly \$1200.

The Times fund was increased yesterday by \$100, leaving a balance of \$246.50, which will be telegraphed East today.

Treasurer Witmer of the committee forwarded to Gov. Beaver of Pennsylvania \$1000, leaving a balance yesterday in his hands of \$2367.50, subject to the orders of the committee.

The following is a list of the contributions received by the committee up to collection day afternoon:

Through C. N. Earl, East Side.....	\$200.00
Los Angeles Herald.....	87.10
Los Angeles Tribune.....	31.50
Nobles 48, Minnesota.....	24.25
Savings Bank of Southern Cal.....	24.00
Los Angeles County Bank.....	23.75
Los Angeles County Bank.....	13.00
Farmers and Merchants.....	131.09
Evening Express.....	33.00
Los Angeles County Bank.....	20.00
Southern Cal. National Bank.....	16.00
Union League.....	17.00
Station C.....	10.00
Illinois Association.....	133.00
Concert at Pavilion (not all in).....	714.00
Total.....	\$3867.95

PECULIAR CASE.

A Woman Drunk Over Her Brother's Dead Body.

THE TIMES yesterday morning published an account of a man dying of starvation, on New High street, while his sister spent the money contributed by charity-disposed people for liquor. The man in question, Louis Bejas by name, died at 1 o'clock yesterday morning, and at 4 o'clock Officer Gilbert, who is on that beat, heard a noise in the house, when he went over to investigate, and found a disgraceful state of affairs existing. The body of the dead man was laid out, and the sister was in a beastly state of intoxication, raising a terrible racket and disturbing the entire neighborhood. The man with whom the woman is living is a confirmed drunkard, and the woman was partly under the influence of the drug, so that he could do nothing. The officer did not want to take the woman to the station while the dead body of her brother was in the house, and suggested that he should be taken to quiet her. She was accordingly taken out into the yard, and two or three buckets of water poured over her head, and she then got to bed. The corpse remained in the house all day yesterday, but the people promised to have it buried this morning. It is a very peculiar case, and will probably be investigated by the coroner.

Musicals at the Winona.

An enjoyable musical was given at the Winona last night, in which several well-known amateurs participated, among them Sig. Moeckel, Harry Curtz, a promising young pianist from San Francisco, and E. L. Lewis, the best amateur banjo player in the city. Between four and fifty guests were present, and the affair was a very pleasant one throughout.

WASHINGTON.

Some Appointments by the President.

An Important Circular to Railway Mail Service Employees.

They Must Toss the Mark or Lose Their Places.

The Agricultural Department Reports Good Outlook for Crops.

Railway Land Cases—National Notes.

By Telegram to The Times.

WASHINGTON, June 10.—[By the Associated Press.] The President made the following appointments this afternoon: Thomas J. Morgan, of Rhode Island, Commissioner of Indian Affairs, vice John H. Oberly, resigned.

Boyd Sturgeon, Jr., of Utah, to be Receiver of Public Moneys at Salt Lake, U. T., vice George W. Parks, removed.

Frank O. Hobbs, of New Hampshire, to be Register of the Land Office at Salt Lake, U. T., vice David Webb, removed.

Charles D. Ford, of Colorado, to be Register of the Land Office in Lamar, Colo., vice Frank P. Arbuckle, removed.

MUST TOSSE THE MARK.

Stringent Orders to Railway Postal Employees.

WASHINGTON, June 10.—[By the Associated Press.] The following general circular was issued this evening from the Postoffice Department: "In connection with the management of the railway mail service, the General Superintendent wishes to convey to those engaged in it his determination to advance its efficiency to the utmost, the accomplishment of which can only be attained by earnest and intelligent cooperation of the superintendents and postal clerks. Every one attached to the service is expected to perform his duty, closely observing and obeying postal laws and regulations, as well as the orders and instructions from time to time issued for his information and guidance.

A partial enforcement of the discipline of the service will not be satisfactory, neither can excuses be accepted for neglect of duty, for irregularities resulting from carelessness or inattention, nor for misdeeds of any kind. Clerks are required to keep themselves posted upon the distribution assigned to them, to be familiar with the rules of connections and with the book of instructions, to study the weekly bulletin of general orders prepared in each division, and to closely examine and note the special orders issued by the division authority over them. It is the present belief that the instructions relating to the making of errors are not strictly followed, and it is supposed that in many instances clerks have agreed among themselves not to check each other, thus defeating the purpose of one of the essential methods which have been instituted for the betterment of the service.

It should be understood that measures will be taken as to those who violate these orders to replace them with those who are more diligent and faithful. To those who perform their whole duty with capability, interest and merit, every consideration will be given in filling of advanced positions. Particular attention in selections for promotion will be paid to the records for efficiency in distribution, obedience to orders and good moral character.

"J. LOWRIE BELL, General Superintendent."

CROPS.

Favorable Signatures From the Agricultural Department.

WASHINGTON, June 10.—[By the Associated Press.] The June returns of the Department of Agriculture show a light increase in winter wheat. The area in seed will be possibly a million acres more than last crop. The gain is largely from Kansas and California. The question of areas will be treated and discussed as possible in a partial local census at various points. The condition of winter wheat still remains comparatively high though it has fallen three points during the month, and averages 93 for the country. The following State averages are given: Minnesota 92, Pennsylvania 95, Texas 95, Kentucky 96, Ohio 88, Michigan 90, Illinois 92, Missouri 93, Kansas 94, California 95.

The area of spring wheat has apparently increased about 3 per cent. Preliminary estimates show a loss of 3 per cent. in Wisconsin and Minnesota, and a gain of 1 per cent. in Nebraska and 7 in Dakota, with an increase in the mountain region. Further investigation may disclose the changes of the year more definitely. The condition of spring wheat is high, except in parts of Dakota where it has suffered from drought. The averages for the country are nearly 90 for the total wheat. The breadth increase is 2 to 3 per cent.

As to oats, the report is that while the condition is severe, the yield is normal standard there will be a full crop. Barley is about the same as last year, and its average condition is 95. The report is a perceptible advance in area, and its general condition is 95.

WASHINGTON NOTES.

Northern Pacific Asks a Rehearing in Land Cases.

WASHINGTON, June 10.—[By the Associated Press.] Assistant Secretary Chandler, sitting with Assistant Atty.-Gen. Shields, today heard arguments upon several motions by the Northern Pacific for a rehearing in between 300 and 300 cases in which the questions involved are substantially the same as those in the celebrated Guilford-Miller case, in which it was held by Secretary Vilas August 2, 1888, that the sixth section of the granting act, which prohibited any indemnity withdrawal, was no authority in law for the filing of a map of the amended general route. Several other Pacific routes were also represented by counsel.

The President does not receive any business calls on Monday, but holds a public reception in the afternoon. The visitors this afternoon included 48 Chinese pupils of Mt. Vernon Place Methodist Church of Baltimore.

Capt. White and Thomas J. Blakeney, Superintendent of the Twelfth Life Saving District, have been appointed a commission to select and purchase the equipment and life-saving stations at Gougille River, Umpuqua River and Yaquina Bay, Or., and Ilwaco Beach and at Peterson's Point, Wash., having due regard to the probable frequency of wrecks and the convenience of the service.

A Cyclone's Fury.

UTICA (N. Y.), June 10.—A cyclone passed through Port Leyden and the adjacent country yesterday afternoon, overturning houses, trees and fences and damaging crops. The loss will be very heavy. The streets of Port Leyden are impassable on account of wreckage. Only one life is reported lost.

The Midland and Pacific.

PIERRE (Dak.), June 10.—Engineers started today to survey a road through to the Pacific Coast. It will be called the Midland and Pacific. It will be the eastern terminus. It is believed to be backed by the Illinois Central.

A Boy's Horrible Crime.

CLEVELAND, June 10.—Great excitement was caused a month ago by the disappearance of pretty Maggie Thompson, aged 9 years. Finally the remains were found under the house of Henry Leith, a neighbor

FOREIGN FIELDS.

Italy Solid for the Triple Alliance.

Austrian Clericals Indignant Over the Bruno Affair.

Henry George Talking Land Reform to the Parisians.

An Austrian Town Burned—Loss of a Spanish Man-of-war—Other News from Abroad.

By Telegram to The Times.

ROME, June 10.—[By Cable and Associated Press.] During the debate in the chamber of Deputies on the vote of censure proposed by the Extremists for the Italian Consul at Trieste, Cavalletto spoke in defense of Italy's alliance with Germany and Austria. He said Italy ought to maintain faithfully the treaty with Germany and Austria. The day would come when she would have to fight side by side with Austria to prevent the Adriatic from becoming a Silesia sea. He concluded by proposing a vote of confidence in the Government.

Prime Minister Crispi declared the peace of the world reposed in the treaty. It questions of nationality across Italy would have nothing to give and nothing to Conscience in the Government was then voted by a large majority.

AMERICAN ENGINEERS WELCOMED.

PASADENA NEWS.

A QUIET DAY AT THE VALLEY'S CROWN.

The Noble Work—A Celebrated Case
The Presbyterian—Free Water
—Here and There—Local Fountain—Personal Mention.

PASADENA, June 10.—[Correspondence of THE TIMES.] The Board of Trade has telegraphed Gov. Heaver of Pennsylvania to draw on the citizens of Pasadena to the amount of \$500 in aid of the Johnstown sufferers. In addition, the telegram reads, "with a probability of more to follow." The Citizens' Committee is still receiving subscriptions, and in all likelihood \$150 more will be sent the latter part of the week. The sufferers from the conflagration at Seattle will also be remembered, and will be telegraphed nearly \$500.

"A CELEBRATED CASE."
Calvin Case, formerly in the employ of Barnes, the fruit merchant, has been engaged by the Enforcement Committee to obtain evidence sufficient to cause the arrest and conviction of parties violating the anti-littering ordinance. This information was obtained from Mr. Case direct, and although he admits that the committee is trying to check a wrong without a well-founded plan, he strongly maintains the gentlemen are working for the best interests of the city.

FREE WATER.
At a special meeting of the directors of the Pasadena Lake Vineyard Land and Water Company held recently, it was decided to reduce the water rates on irrigation until the 1st of July. With this act of the directors, stockholders will be given water to sprinkle their grounds, and lawn free until that date. The stockholders of the Lake Vineyard Land and Water Association voted to dissolve the old company at the same time.

THE PRESBYTERIANS.
No regular pastor has as yet been called to the pulpit of the First Presbyterian Church. Ever since the resignation of Rev. M. N. Cornelius, the congregation has had the pleasure of listening to the divine utterances as unfolded by various ministers of the Presbyterian faith. Rev. N. H. Benck of Troy, N. Y., has been visiting, asking if he would accept the call if tendered him. No answer has been received from that gentleman, and it is not known whether or not he will accept. On next Sunday the pulpit will be occupied by Rev. J. W. Ellis of Los Angeles, and on the following Sabbath by Rev. Blakie, D.D., LL.D., of Edinburgh, Scotland, one of the most able divines in the world.

LOCAL MENTION.
James Hughes is having a brick residence erected on Park street.

Work on the Strong building is progressing nicely but slowly.
C. D. Middlekauff and W. P. Young leave tomorrow on a ten days' hunting and fishing trip to Silver Lake, in the vicinity of Old Bay.

An unknown man jumped off the overland train this morning when he was within a few miles of the depot. He left a heap, but gathered up without injury.

HERE AND THERE.
The overland arrived on time today from the east.

No meeting of the Board of Trade tomorrow afternoon.
The Chinese fan-tan players were called before Justice Van Doren this afternoon and recommended for a hearing tomorrow morning at 10 o'clock.

The Universalists have raised a purse of \$22 in aid of the Johnstown sufferers. The amount is now in the hands of Treasurer Alamy.

The congregation of the Methodist Church of North Pasadena observed Children's day last evening in Thomas Hall with appropriate exercises. The attendance was very large and the floral display very handsome.

The First National Bank has ordered a division of the \$100 equally between the Johnstown and Seattle sufferers.

City Clerk Campbell informs the TIMES reporter that the work of placing the valuation on property commenced last week. The assessors request also owners of property, both real and personal, to hand in their assessments before July 1st.

W. H. Storms, city editor of the Union, has developed a decided taste for pedestrianism. Approach the walker lightly on the subject.

PERSONALS.
Frank Amlar of North Ontario is registered at the St. Nicholas.
Grand Patriarch Nace of the Grand Encampment of Odd Fellows arrived in town this evening from Los Angeles.

W. H. Wiley has gone to San Francisco to take in the night.
E. S. Frost and wife, Miss Carrie Frost and George Frost left for Biddeford, Me., on the overland this morning.

E. J. Shackleford, cashier of the United States Custom-house at San Francisco, with his wife and daughter, are in the city, the guests of his sister and nephew, Mrs. J. C. Fitzhenry and Dr. M. G. Davis.

E. C. Webster has gone to Perris to spend a few weeks.
The Boardman brothers of Sierra Madre were in the city today on business, and gave the TIMES branch office a visit.

UNIVERSITY PLACE.

A New Secret Society—Notes—Personal.

UNIVERSITY PLACE, June 10.—[Correspondence of THE TIMES.] Last Saturday evening an event took place which is regarded as important in the lives of the interested parties, and not without interest in the history of the University of Southern California. It is known that for three years past occasional efforts have been made to establish a Greek letter fraternity among the men of the College of Liberal Arts, but obstacles have been encountered each time that defeated the ardent wish of the students. The young ladies were more fortunate, for last year two chapters were established here—one of the Delta Gamma and one of the Kappa Alpha Theta. At last, however, men's Greek letter fraternity—the Sigma Chi—has made its appearance. The name of the new chapter is the Alpha Upsilon, and its charter members are as follows: Graduate, George Sinsabaugh; senior, W. C. Whitcomb; juniors, G. D. Christy, L. B. Christy, Paul Arnold, C. A. Bradley, E. A. Reed, E. B. Stuart; freshmen, Elmer Hall, T. W. Robinson. The charter for the new chapter was obtained through the efforts of graduate members of the fraternity residing in the vicinity, who administered the rites of

initiation to the 10 neophytes at Masonic Hall last Saturday evening. After the ceremony of "riding the goat" was over the company adjourned to Ebinger's restaurant, where they spent the remainder of the week discussing a sumptuous banquet of both physical and intellectual good things. There were present, besides the initiates, Dean W. S. Matthews of the Northwestern Chapter, City Clerk F. G. Teed, and Messrs. Clarence Miller, Esq., N. P. Connors, Esq., Orr Haroldson, M. Vernon, and W. Wright of the First National Bank, all old members of Sigma Chi.

The new fraternity that has thus made its appearance in our midst is one of the greatest western college societies. It has at present 30 chapters, the baby being the Alpha Upsilon. This chapter is to make its social debut in a reception which it gives at the College of Music tomorrow evening.

Other social events of importance are announced. The Delta Gamma Society has issued invitations for a reception at the residence of Mr. Hunt, on Jefferson street, next Saturday evening. The house is known among the students as the "Witches' Cauldron," a name given it by the Delta Gamma young ladies who have been boarding there.

Invitations are also out for the annual reception of President and Mrs. M. B. Boyd June 25th. It is understood that the Delta Gamma Society intend to make this the greatest social event in the history of the university. Commencement week promises to be unusually interesting. Students are preparing for examinations, public exhibitions and receptions. The anniversary exercises will begin on Friday, June 21st, and continue without interruption till Thursday, June 27th. The Aristotelian Society appears Friday, the 21st, the Athena Saturday, the 22nd, and the Irving Wednesday, the 25th.

On Monday evening, the 24th, will occur the concert of the College of Music. Tuesday will be council day, the meeting being held in the afternoon. The commencement exercises will take place on Thursday morning.

The liberality of this community made itself manifest on Sunday in a collection at University Church, amounting to \$80, which is to be divided between the Johnstown and Seattle sufferers. On Tuesday evening, the 11th, Rev. Dr. Warner will lecture at the church in aid of the same fund.

The Young Women's Auxiliary of the Women's Foreign Missionary Society is displaying great enterprise. About 30 young ladies were present at the tea given last Thursday evening at the residence of Mrs. Clara Fisher, on Simpson street. A lawn party will be given at the same place next Friday evening.

The Ladies' Aid Society announces a flag festival at the church next Thursday evening.

A fair audience greeted Dr. R. S. Cantin at his lecture on "The Girl to Love." The lecture was as wholesome as it was entertaining.

BOLD AND BRAINY.

Another Envious Los Angeles Contender.
[The Los Angeles Express.]

The Los Angeles Express, whose "amiability" is often alluded to by the Herald, is apparently exercised to the point of annoyance over the notice by the Courier that the LOS ANGELES TIMES had commenced a new volume, and speaking from subjective consciousness, intimates that the Courier is actuated in giving a complimentary notice by the fact that THE TIMES had alluded pleasantly to something recently appearing in the Courier. The Express ought not to size up either its esteemed or contemned contemporaries according to its own standard. To do so is the evidence of a little mind. The notice of THE TIMES was written, as it happened, two days before its appearance. The Express knows that such things happen. We have noticed the Express pleasantly on "similar occasions," but then "the case being altered, that alters the case." Nor was this the first time we have written the TIMES with what we meant to be forcible appreciation. To take advantage of a mere coincidence is in bad taste and evidence of a "talent" for little things. The fact is that the Express would be an excellent newspaper if there was any way of injecting a barrel of gunpowder or a box of dynamite into its mental and moral circulation. It is amiable, it is well, it is the Express. That the Courier has written with warm appreciation of the LOS ANGELES TIMES, when there could be no possible suspicion that it was actuated in doing so by a desire to return a compliment, we can demonstrate by the reproduction of the following from the San Bernardino Courier of Sunday, June 10, 1888:

We heartily congratulate our bold and brilliant contemporary, the LOS ANGELES TIMES, which has just commenced a new volume. Editorially, it is one of the ablest papers in California, and in every feature it is a first-class newspaper. What we have especially admired about THE TIMES is its splendid fearlessness. It is not every newspaper that is a fearless one in an editorial position. Col. Otis is not a combative man, but he is combative with the pen. He is combative because he is in earnest. The man who edits a paper with the trimming plan of a cowardly expediency may avoid making enemies, but his paper will be a nondescript, characterless, mechanical, necessary sheet, without individuality, without influence, without respect, without a particle of power with the public. If it has no enemies to hate, it will have no friends to respect. Col. Otis has achieved the splendid success by his quite as much by many honest and intense earnestness as by his undeniably commanding ability as an editor. He has by a combination of brains, conscience and courage, in a comparatively short time built up a great newspaper, that is what THE TIMES is today, and it is simply the creation of its editor.

Now, this opinion on THE TIMES was written a year ago, and is, therefore, even to eyes as suspicious and small in range of vision as those of the Express, above any suspicion as to its disinterestedness. We wrote exactly as we thought. Such was our opinion of THE TIMES then, and such it remains. We like papers whose columns give indisputable evidence of high talent, unflinching purpose and dauntless courage. Such papers are rare. THE TIMES is one of them and there is another one in Los Angeles, but the first letter of its name does not begin with an "E"; in fact, found three letters farther along the alphabet.

Sewing Machine.
OUR PREMIUM
HIGH-ARM
SEWING-MACHINE!

TESTIMONIALS:

Following are letters received by the Times-Mirror Company from subscribers who have purchased the Premium Sewing-machine through us:

"GIVING PERFECT SATISFACTION."
J. W. Reed, Pasadena, writes: The Times-Mirror Sewing-machine is giving perfect satisfaction; in my opinion it is as good as any \$10 machine. I have not done any heavy work on it yet, but I think it will do it all right.

"HIGHLY PLEASSED WITH IT."
Mrs. Edwin Brown, Los Angeles: In reply to yours of 28th would state that I am highly pleased with the Premium Sewing-machine I received with the Mirror. Gives every satisfaction; so easy to learn how to manage; does such excellent work; in fact cannot praise it too much, and would not take twice the amount it cost me.

"THE MORE WE USE IT THE BETTER WE LIKE IT."
Mrs. S. A. Ware, Pasadena: I have used my sewing-machine since last July. The more we use it the better we like it. On fine and heavy work it is splendid. We have tried the attachment. In fact it goes ahead of our advertisement so far.

"LIKE IT BETTER THAN THE \$125 KNOWN."
William Wilson, Los Angeles: The machine gives entire satisfaction. My wife likes it better than the \$125 Singer that it has replaced.

"GIVES GOOD SATISFACTION."
R. W. True, East Los Angeles: We have the High-Arm Machine and use it for light family sewing. Gives good satisfaction.

"SUCH SMOOTH—AND SEWS EVERYTHING BUT BUTTONS."
William F. Wade, Los Angeles: The report of the chief engineer of the sewing department of my domestic establishment is to the effect that the sewing-machine lately furnished by you for \$22 arrived in good order and in due time, and has given entire satisfaction. It runs lightly and with very little noise and performs to perfection all kinds of sewing work with the exception of buttons. (When the freight is paid to Los Angeles by the Times-Mirror Company the price is \$25.50.)

"THIRD 'EM ALL AND LOVES 'EM BETTER THAN CHINESE BAIT."
William L. Price, 218 Temple street, Los Angeles: My wife tried several \$75 machines, and chose the Mirror Premium Sewing-machine as an equal to the best in the market, for one-fourth of the money. It is perfect in all particulars, and admired by all who have seen it. My wife has been using it several months, and we both cheerfully recommend it to the public as a superior.

"WE DELIGHTED WITH IT."
Mrs. J. W. Springfield, Pasadena: The High-Arm Sewing-machine arrived in prime condition, and is perfect in every respect. Freight \$2.50, with first cost added, making \$25.50 for as good a machine as is usually sold through agents for \$75. Well pleased. (\$25.50 when freight is paid to Los Angeles.)

"VERY MUCH PLEASED WITH IT."
Mrs. Martha Allison, Downey: I am very much pleased with my machine as far as I have used it, and feel safe in saying that I have just as good a machine as if I had given \$75 for it. I am not a sewing-machine man, but I think it is a very good one, and I think it is fully as good as represented.

"SUCH LIGHT AND EASY—DOES ITS WORK WELL."
S. M. Shaw, Pasadena: I can say in regard to the machine that it is well made. It runs light and easy, and does its work well. It is a very cheap machine at the price you furnish it.

"EQUAL TO THE BEST EVER USED."
William T. Parcel, Compton: The High-Arm Sewing-machine ordered from your company was received in good order, and Mrs. Parcel says it is equal to the best of any other kind she has ever used.

"PROVES SATISFACTORY."
W. F. Beasley, San Gabriel: The sewing machine we received through your office proves satisfactory.

"WIFE THINKS IT THE BEST SHE EVER USED."
J. W. McCallum, Turin City: We received Premium Sewing-machine through your office, and my wife thinks it the best she ever used; consequently are well pleased.

"SUPERIOR IN SOME RESPECTS TO THE BEST."
S. A. Mattison, Los Angeles: My wife and I are well pleased with your Times-Mirror Sewing-machine. They have used several of the best makes of machines, and yet your machine is superior in some respects to those they have used, and in no way inferior. They were at first afraid, as many are, no doubt, that it is too cheap to be first-class, but are now satisfied that it is as good as machines costing three or four times as much.

"TIGHTENED THE SCREW AND SEW BURS AND BOWS."
L. A. Myers, Newhall: Yours of the 1st inst. received as will say in reply that soon after I wrote you I discovered the cause of the trouble. The little tension screw in the shuttle had worked loose and was nearly out, and the shuttle thread, in sewing fast, would catch in the screw and break. It is now tightened and it now works like a charm; no more breaking thread or irregularity of stitch.

"ONE OF THE BEST INVESTMENTS THEY EVER MADE."
Mrs. U. L. Shaffer, Orange: We received our High-Arm Sewing-machine in good order, and I am very much pleased with it, and consider it one of the best investments we ever made. It is nicely finished, and runs at night, doing nice work. Any one needing a good machine I do not think can do better than invest \$25 in the machine and Mirror (for \$25.50 when the company pays freight to Los Angeles.)

"MORE THAN SATISFIED AND GLADLY RECOMMEND IT."
Martha M. Shaffer, Orange: I thank you for sending me for testimonials, as I have not my new machine in my parlor without recommending it as I was very busy and had a good machine ready for work and used to running. So I did not take time to do anything with the new one until I received your letter. I brought mine out and used it, and I am more than satisfied, and gladly recommend it to those who need a machine. I think I would have gained time to have used it long ago.

"EQUAL TO ANY \$55 MACHINE."
Mrs. A. W. Worth, Los Angeles: For the benefit of those who stand in need of a good sewing machine, I will say that after using the Premium Sewing-machine for about four months, I find it equal to any \$55 machine I have seen.

"THIS MACHINE—
WITH THE
Weekly Mirror for One Year,
FOR \$25.00 CASH.
Address: THE TIMES-MIRROR COMPANY,
218 Temple Street, Los Angeles, Cal.

REDONDO BEACH!

We respectfully invite the attention of the public to the following facts relative to this property:

IT IS THE NEAREST PORT TO LOS ANGELES

Where freight and passenger vessels of largest size can transfer direct to railway cars. It will be connected with Los Angeles and the general system by

TWO LINES OF RAILWAY.

A first-class service will be provided, and convenient trains will run during the daytime, thus making Redondo

Seaside Suburb of Los Angeles!

—IT WILL ALSO HAVE—

THE FINEST HOTEL

Between Coronado and Monterey, to be erected immediately; has the finest beach for bathing and the best fishing on the coast; is abundantly supplied with

Pure Soft Water,

and has the richest soil of any seaside resort in the country. It will have elegant and commodious buildings for the permanent use of the CHATAUQUA ASSEMBLY, and has a greater variety of attractions for the tourist and health-seeker than can elsewhere be found on the shores of the Pacific.

This Property Has Been Subdivided Into Lots!

Suitably arranged both for homes and business purposes, and the company propose to spare no expense in making REDONDO the most popular resort in California.

FOR PARTICULARS AS TO PROPERTY AND TERMS OF SALE INQUIRE OF

REDONDO BEACH CO.,

Court and Main Sts., Los Angeles, Cal.

INGLEWOOD!

The Centinela-Inglewood Land Comp'y

—OFFER FOR SALE—

Choice Residence Lots!

IN ONE OF THE MOST BEAUTIFUL ORANGE GROVES IN CALIFORNIA.

Is located midway between Los Angeles and the sea and has a perfect climate, the result of protection from high winds and sudden changes in temperature. The town is provided with a magnificent water system derived from FLOWING ARTESIAN WELLS.

One of the railway lines of the Santa Fe system runs through this place and affords easy access to Los Angeles or the seaside.

THE COMPANY ALSO HAVE FOR SALE

LAND ADJACENT TO THE TOWN!

In Tracts of One Acre to One Section.

The soil is a rich, sandy loam, and for the growth of the Orange, Lemon, and all the Deciduous Fruits, as well as for Vegetables, Flowers, or Nursery Stock, cannot be excelled in the State. Considering the uniformity in the character of the soil, its great productiveness, and the comparatively trifling cost of cultivation.

THESE LANDS ARE OFFERED AT A BARGAIN.

TERMS OF SALE—One-fourth cash, balance in one, two and three years, at a low rate of interest. Address

Now Ready, and for sale by Carriers, Newsboys,
News Agents, and at the Counter.

ANNUAL TRADE NUMBER,

CONTAINING—

A COMPLETE REVIEW OF THE YEAR.

Fifty-six Large Pages. Equivalent to a Two Hundred Page Book.

The Annual Trade Number of THE TIMES, now ready, is the most complete and interesting publication of that character ever published in Los Angeles.

NOTABLE FEATURES—It contains a business review of the year, embracing a great mass of valuable facts bearing on the city and country; a thorough exposition of the natural resources—mineral, vegetable, commercial and climatic; a review of the rise and progress of the boom, with solid proofs that the country is now in better condition than it was during the height of the real-estate excitement; a carefully compiled exposition of the varied inducements which Southern California offers to the health-seeker, the home-seeker and the tourist, besides a number of interesting and valuable special articles on pertinent subjects. It contains more solid information about the country than could be crowded into the compass of a hundred long letters, and for a few cents and the expenditure of a few minutes' time in writing the address you can send a friend more information than you could write in a month, even if you had all the facts at hand. For a dollar you can supply ten families in the front East with information that may lead them to join the army of pilgrims to Southern California, to their own and this country's advantage. Thus, whether viewed from the standpoint of friendship or self-interest, it is hard to see that no better use can be made of a dollar than by purchasing the rewritten copy of the great Annual Trade Number of THE TIMES. Not one-tenth of the pleasure can be bestowed in any other way for the same amount of money.

CONTENTS.

SOUTHERN CALIFORNIA IN 1888. 1

INTRODUCTORY. 1

I.—A GENERAL VIEW. 1

II.—THE FIRST COUNTY. 1

Los Angeles the foremost county in Southern California.

III.—FOR HEALTH. 1

Climatic advantages: What Southern California offers to the frail and the sick.

BUSINESS.

By Telegraph to the Times

Money, Stocks and Bonds.
New York, June 10.—Money on call at 1 per cent.
 Prime mercantile paper, 3/8%
 Sterling exchange, dull but steady at 4 1/2% for 60-day bill, 4 3/8% for demand.
 American cotton-seed oil, 58 1/2%
 Government bonds, dull but steady.
New York, June 10.—Trading at the opening was confined to a few leading shares. Later, however, under the stimulus of good buying, the tone of the market improved a complete change, and prices were strengthened, except in the last hour. Realizations then sagged the list off, and the final figures are fractionally lower than the best prices, but in most cases, materially higher than the final prices of Saturday.
